

Jurassic 5 Lyrics

"Contact"

Two excavations revealed a prehistoric fossil story about a band

Moving South

Carried here over 500,000 years ago

Contact

A planet

Yeah

I'm in range

Okay, engine stop

I'm going to step off the LEM now

Interplanetary contact with Earth

Two excavations revealed a prehistoric fossil story about a band

500,000 years ago

Moving South

To the Los Angeles underground

Stop

Send the word

Rapping with the gods

Word

Full contact

Interplanetary contact with Earth

Move forward

To the future

The year 1999

The place: Los Angeles

Los Angeles is what's happening

Los Angeles is what's happening
